Objects

- Compilation Unit
- (*.java file) J Java file
- (not on a build path)
- 6 class file
- (generic) file
- ? unknown object
- JPage file
- J. JPage page (evaluation in progress)
- JAR description file പ
- Þ Java Working Set
- 멉 Java Model
- 🛋 Library container 🚠 JAR file
- w/ attached source JAR file 1
- w/o attached source 囲 source folder
- Package (pkg)
- empty package
- Iogical package
- empty logical package
- B package (has only non
- Java resources)
- package declaration
- 1≘ import container
- 4____ import
- Θ class
- 0 interface
- Θ enum

0.0 Class

Θ

- 0 annotation
 - Method Field
 - Visibilitv
 - ۵ default (pkg) Δ private
 - \diamond ٥ protected
 - 0 public

CVS Decorations:

- under version control П tree contains
- * outgoing changes being edited locally
- 2 (in proj. using watch/edit) unresolved merge Ħ
- conflict under version control
- (no remote directory)
- not under version 2 control

Object adornments

J project is Java project Java Elements:

- causing an error
- causing warning Â.
- deprecated

х

- constructor С
- abstract member А
- final member F
- static member s
- synchronized member 0
- type w/ a main method ⊳ implements method ~
- from interface overrides method from .
- super class
- type with focus in Type hierarchy
- maximal expansion level in ٥ Call Hierarchy
- recursive call in Call Q Hierarchy

Compilation unit containing an... as a primary type:

- abstract class А
- interface 0
- enum Ø
- annotation ര

Build path

- class path variable
- ā JAR w/ attached source
- ō JAR w/o attached source
- = system library
- ê₀ build path ordering
- **3**8 inclusion filter
- exclusion filter
 - access rules
- രി Javadoc location
- (iii) source attachment
- native library location

output folder G

Code assist

- HTML tag <>
- @ Javadoc tag
- local variable 0

template

- Compare
- field 0 0
 - method

Debugger

- \mathbf{v} debug launch
- O run launch
- terminated run launch
 - process
 - terminated process
- debug target
- ø suspended debug target ේම
 - terminated debug target
- 0 thread
- ŵ suspended thread
- stack frame
- running stack frame
- as a result of an unsuccessful

hot code replace:
